This is an ideal location for excellent rental income and price rebound. This is a nice modern town-house in a middle-class area. It's close to all facilities such as shops and good schools. Built just 8 years ago in 2002, it's in great condition and highly insulated. It will require very little maintenance in the future. This particular house is just perfect for the rental market, apart from being in a nice area, it isn't too big. Some tenants are nervous about heating bills – aren't we all these days! and this is a low maintenance property.

Prices are springing up from the absurdly low levels as local investors buy up such property, there are even bidding wars on many repossessions. Prices are now sharply on the up and this property previously sold for 102,100 USD on the 24th of September 2007. The list price by a local agent before we secured this property direct from the bank was 98,000 USD (Feb 2010 – Remax)
